3. Tokyo, Japan

4. 27 million

5. increase

6.

7.

8.

Asia - coastlines - ship repair/building. Leading fishing - Japan, China. Eat fish/ exporting.

Indonesia- rain forests threatened logging/agriculture

Gobi - nomads/goats. -40 - 110.

p 137

- C 1. Few Asians live in these areas: mountains and deserts A. cities and farms B. coasts and deltas
C. mountains and deserts
2. The world's leading fishing country is: A. China B. Indonesia C. Japan
3. Asian rainforest are found in: A. Cambodia and Laos B. Taklimakan Desert
C. both A and B
4. The majority of people in the Gobi Desert are: A. city dwellers B. nomads
C. farmers
5. This industry takes advantage of a country's coastline: A. shipbuilding B. information technology C. logging

Transportation largely undeveloped. RR/highways do not cross borders. Most travel by sea/air.

Walking - rural areas. Cities - cars/public transport

Japan - rail 199 mph

China - busy roads for cars, traffic jams. Public transport/bikes/walking.

India - busy roads, public transport/bikes/rickshaws (two-wheeled cart pulled by person)

page 138

A. Bangkok B. Beijing C. Japan D. India E. most of Asia

1. very safe high-speed rail system
2. congested roads
3. transportation largely undeveloped
4. sky rail
5. rickshaws

page 138

A. job B. housing C. food

1. Crop failures can lead to this: _ _ _ _ shortages
2. Not enough space for people to live in cities: _ _ _ _ _ shortage
3. Where will everyone work? _ _ _ shortages
